PROFILE

Experienced platform leader and problem solver with a strong track record of delivering meaningful, people-focused technology outcomes. I specialise in managing complex platforms and leading high-performing teams to drive transformation, uplift capability, and support long-term service improvements. Committed to creating positive impact through collaborative, scalable, and user-centred solutions

WORK EXPERIENCE

Chubb Life (formerly Cigna)

Core Systems Platform Manager Mar 2024 - Present

- Lead a 20+ cross-functional development team owning core platforms including Salesforce, Appian, communications tools, and legacy systems.
- Drive positive change through scalable, people-focused transformation initiatives.
- Mentor developers and engineers across the team, building capability and fostering a collaborative learning environment.
- Oversee platform lifecycle and SDLC processes, aligning with enterprise architecture and business needs.
- Introduced ITIL-aligned Problem Management processes to reduce incident recurrence and improve system resilience.
- Manage vendor relationships, platform roadmaps, and ensure consistent stakeholder engagement to drive platform adoption.

Chubb Life (formerly Cigna)

Salesforce Developer Sep 2021 - Mar 2024

- Spearheaded agile-driven Salesforce development aligned with life insurance business priorities.
- Translated complex business requirements into scalable Salesforce solutions and optimized performance.
- Collaborated across teams to enhance critical processes and continuously improved system capability.
- Mentored junior developers and promoted best practice guidelines across the Salesforce practice.

ROBERT YOUNG
